

October 2020 NEWSLETTER

What a beautiful fall we are having! Enjoy each and every day as we know this won't last forever!!

The Board approved the applications of Jamie Brothers, Craig and Vicki Sorenson and Jerry Riedel at the September meeting. When you see them please give them a warm welcome!

If you are out at the Club during the evening you will notice new street lights which were installed thanks to Tim Nieters and a friend.

Road maintenance continues with more road base on the north side on Lakeshore Circle and continuing around.

Fishing Derby and Fish Fry had a good turnout despite it being quite windy. Only one ounce made a difference between the winner or loser. Winner of the biggest three fish combined by weight was Jamison Fiedor Wagaman with second place winner Kim Sweet. Winner of the biggest fish by weight was our own Commodore, Lonnie Berett and second place winner Braeden Curtis. First place winners won \$100.00 and second place winners won \$55.00. The Club made \$100.00.

The harbor/slip committee has been working diligently to finalize the list of rules and guidelines for slip owners. More information should be available at the October meeting. If you are interested in renting a slip not being used there is a list of slip owners and phone numbers on the bulletin board in the clubhouse.

If you missed the September meeting you missed the celebration of marriage between Jamison Fiedor and Chad Wagaman. They provided hors d'oeuvres and cupcakes. Thanks you two, and may the years ahead be filled with an abundance of love!

IMPORTANT NOTICE: The Wyoming Department of Environmental Quality has published an advisory that a Harmful Cyanobacterial Bloom has been noted at Buffalo Bill Reservoir. If you encounter a potential HCB, the Wyoming Department of Health and Wyoming Livestock Board recommend the following:

- Avoid contact with water in the vicinity of the bloom, especially in areas where cyanobacteria are dense and form scums.
- Do not ingest water from the bloom. Boiling, filtration and/or other treatments will not remove toxins.
- Rinse fish with clean water and eat only the fillet portion.
- Avoid water spray from the bloom.
- Do not allow pets or livestock to drink water near the bloom, eat bloom material, or lick fur after contact.
- If people, pets, or livestock come into contact with a bloom, rinse off with clean water as soon as possible and contact a doctor or veterinarian.
